

CITY OF WEST HOLLYWOOD
QUESTIONS AND ANSWERS: 9-16-13

#	Merchant Services Questions	Answers
1	Since the City currently accepts credit cards, do any of the locations require a manual close capability?	City Hall cashier terminals batch out transactions as part of the daily close process.
2	Do you have a need to close a batch more than once a day? If so, please explain.	On occasion this might occur at the Parking Counter (if personnel is changed during the day).
3	<p>In reference to the City Hall/Cashiering/Parking Counter- does the City use traditional credit card machines to process transactions- if so, please identify the terminal make and model (i.e. Hypercom T7P, Hypercom T4220 (IP), Verifone Omni 3750, Verifone VX570 (IP) etc.</p> <p>How many terminals are currently deployed in the City Hall/Cashiering/Parking Counter?</p>	<p>This information is included in Section 5C (page 6) of the Merchant Services RFP. Note, <u>CORRECT</u> machines names were provided, however, location is as follows:</p> <p>City Hall Cashier Credit Card Machine type: (One machine) Verifone Model Omni 3730 (PIN is used)</p> <p>Parking Counter Credit Card Machine Type: (Two machines) both Hypercom Model T7Plus (PIN not used)</p>
4	Do you own, rent or lease the equipment?	The equipment is leased.
5	Do you accept PIN-based Debit cards transactions at any Department/locations? If so, how many Department/locations accept this type of transaction?	<p>This information is included in Section 5C (page 6) of the Merchant Services RFP. Note, <u>CORRECT</u> machines names were provided, however, location is as follows:</p> <p>City Hall Cashier Credit Card Machine type: (One machine) Verifone Model Omni 3730 (PIN is used)</p> <p>Parking Counter Credit Card Machine Type: (Two machines) both Hypercom Model T7Plus (PIN not used)</p>
6	If accepting PIN-based transactions what kind of PIN Pad do you use? i.e. Verifone PIN pad 1000se, Hypercom P1300, etc.	PIN pad used on the Omni 3730 only, the City would like to use PIN pad on the Hypercom Model T7Plus machines and/or equipment proposed.
7	In reference to the City's credit card option for a parking space- please describe the credit card payment process i.e. if using a Pay Station please identify the name of the vendor who supplied the system and identify the middleware or processing software the system/server uses to handle the credit card processing? i.e. Authorize.net, PC Charge ver. 5.7, IC Verify ver.4.1, etc.	<p>Surface Lots: Revenue Control Equipment provided by Digital Payment Technologies - Gateway is First Data</p> <p>On -Street Meters: meters provided by IPS - Gateway is Monetra - Version 7</p> <p>Parking Structure - Pay Station Equipment is SKIDATA provided by Sentry Control Systems - Gateway is SixCard</p>

**CITY OF WEST HOLLYWOOD
QUESTIONS AND ANSWERS: 9-16-13**

#	Merchant Services Questions	Answers
8	In reference to the IPS Group (On-Street) parking meters- what middleware/processing software/payment gateway does this vendor use to facilitate the credit card processing? i.e. Authorize.net, PC Charge ver.5.7, IC Verify 4.1, etc.	Monetra - Version 7
9	Do you process GSA/Government Procurement, Corporate, Commercial Cards that require that require Level II or Level II reporting?	No.
10	Do you process large ticket Visa/MasterCard transactions? i.e. Sale amount in excess of \$5000.00 per transaction ?	Yes.
11	If using traditional credit card machines to process transactions the terminal(s) must have a dedicated line to dial out for approvals- does your telecommunication system require a "9" to access an outside line?	Yes.
12	Is this dedicated line analog or digital?	The lines are analog and are 1MB lines.
13	Does the City use an Interactive Voice Response (IVR) telephone-based system to accept payments, if so what is the name of the vendor that provides the service? In addition, what is the name of the middleware/software/payment gateway which handles the credit card processing?	No
14	Does the City use an integrated Point-of-Sale (POS) system to process credit card transactions? If so, what's the name of the system and what middleware/processing software does the system use to handle the credit card processing?	No.
15	Who is the City's current Merchant Services provider for the Departments currently covered by the RFP?	There is a variety of providers. It is anticipated that the result of this RFP process will be to have one provider (except for parking fines [Xerox] and recreation [activenet]). The current providers are Bank of America and CTS (subsidiary of First Data).
16	Do you currently accept Visa/MC?	Yes.
17	How long have you been in your present business?	29 years.
18	What are your projected Bank Card Sales each month (US Dollars)?	Information regarding average volume and amounts are included in Section 5C (page 6 and 7), and Appendix C of the Merchant Services RFP.

**CITY OF WEST HOLLYWOOD
QUESTIONS AND ANSWERS: 9-16-13**

#	Merchant Services Questions	Answers
19	What is your Average Ticket Amount?	Information regarding average volume and amounts are included in Section 5C (page 6 and 7), and Appendix C of the Merchant Services RFP.
20	What is your Highest Ticket Amount?	Generally there is about one transaction per month in excess of \$10,000.
21	What percentage of your transactions will be in-person Card Swipes?	Currently this is 99%; the City is interested in on-line options.
22	What percentage of your transactions will be Keyed With Imprint of Card?	<1%
23	What percentage of your transactions will be Keyed Without Imprint of Card?	<1%
24	Do you currently accept AMEX?	No (this option is currently being explored).
25	Do you currently accept EBT?	No.
26	Do you currently accept Visa Check?	Yes.
27	Do you currently accept Debit MasterCard?	Yes.
28	What is the best phone number, cell number or e-mail we can reach you at should we have a question so we can make you eligible for the special pricing?	Please refer to page 1 of the RFP for the contact person.
29	Please confirm that the following three (3) vendors are the only third-party applications that will require an interface: - IPS Group for Parking Meters (On-street) - Digital Payment Technologies (Parking Lot Pay by Space) - Sentry Control Systems (Parking Structure Pay Stations).	Yes.
30	Can the City release their current contract and/or rates with the following processors: - CitiMerchant Svcs/First Data Svcs - BoA Merchant Services - West Coast Merchant Services	Proposals, especially the pricing should be based on your firm's pricing structure/policy/practice.
31	How many On-street Parking Meters are there?	About 2,000.
32	How many payment locations and stations per location are there for Parking Structures?	There are two parking structures. One structure has two (2) payment stations and the second structure has five (5) payment locations.

**CITY OF WEST HOLLYWOOD
QUESTIONS AND ANSWERS: 9-16-13**

#	Merchant Services Questions	Answers
33	What types of services does your merchant services customer service representative provide today? What type of service would you like to receive going forward? (interchange rate review, regulatory/compliance assistance)	Refer to Section 6E (page 9) "Conceptual Plan" and Section 6K (pages 10-11) "Compensation" of the Merchant Services RFP. The Proposal should provide information determined to be crucial for items outlined in the RFP.
34	How do you reconcile credit card payments for the various City departments?	Reconciliations are by merchant account; for those transactions at City Hall, the revenue system indicates the specific revenue type.
On-Line Parking Permits: 1 merchant account using XEROX		
35	If possible, please provide at least 1 month of credit card processing statements for each department. Interchange accounts for 90% of your overall fees and this is something outside of the control of any processor. I would like to review and identify any interchange savings opportunities.	On-line parking permits are not a part of this RFP.
36	What is the name of the solution that is integrated with XEROX to process payments? (Name of Gateway such as Authorize.net, CyberSource or software with version number) Also, please indicate if you are billed separately by the gateway provider or if XEROX bills you for all services.	The XEROX services are not a part of this RFP.
Parking Fines: 2 merchant accounts using XEROX		
37	What is the estimated monthly credit card sales volume processed? On average, how many transactions do you process on a monthly basis?	The XEROX services are not a part of this RFP.
City Hall: 2 merchant accounts for cashier and parking counter		
38	What is the estimated monthly credit card sales volume processed? On average, how many transactions do you process on a monthly basis?	Information regarding average volume and amounts are included in Section 5C (page 6 and 7), and Appendix C of the Merchant Services RFP. The number of transactions are about the same each month, therefore, the annual transactions can be divided by 12 for an approximate monthly volume.
39	Cashiering – Please confirm that you are using Hypercom T7Plus with memory of 512k or higher. What is the memory (512K or 1MB)?	Not sure, the equipment is leased so it is expected the proposal would include recommendations for equipment and any associated fees.

**CITY OF WEST HOLLYWOOD
QUESTIONS AND ANSWERS: 9-16-13**

#	Merchant Services Questions	Answers
Community Development: counter and on-line		
40	Parking Counters - How many Omni3730 terminals do you use today? Do you own all of these terminals? The City will need an alternative terminal as these cannot be boarded. Do you have a specific terminal model that you would like to use or would you like Wells Fargo to make a recommendation?	<p>This information is included in Section 5C (page 6) of the Merchant Services RFP. Note, CORRECT machines names were provided, however, location is as follows:</p> <p>City Hall Cashier Credit Card Machine type: (One machine) Verifone Model Omni 3730 (PIN is used)</p> <p>Parking Counter Credit Card Machine Type: (Two machines) both Hypercom Model T7Plus (PIN not used)</p> <p>The Proposal should include recommendations for equipment and any associated fees.</p>
41	How many merchant accounts would you like to have for counter and how many for on-line?	One account for each.
42	How many terminals would you like to use for counter transactions? Is there a specific model you prefer? Please indicate if you would like to accept PIN debit transactions as well.	<p>One terminal needed. Only the Parking Counter requires two terminals.</p> <p>The Proposal should include recommendations for equipment and any associated fees.</p>
43	Is there a specific gateway that you would like to use to process payments online? Will you store any credit card information? Do you need bill/invoice presentment?	Currently, City Hall payments are not accepted on-line. That maybe a future service. The on-line payments currently accepted are via third party vendors (ActiveNet for recreation and Xerox for parking citations/fines).
Parking Lots Pay by Space: 14 merchant accounts		
44	What is the estimated monthly credit card sales volume? On average, what is the estimated number of transactions you will process on a monthly basis? Please break it out by merchant account and indicate what services are billed for with each merchant account.	This information is included in Section 5C (page 7) and Appendix C of the Merchant Services RFP.
FHB: 1 merchant account		
45	Digital Payment Technologies – Please confirm that you are using Digital Payment Technologies Enterprise Management System (EMS) version 6.3. If not, please indicate which version you are using today.	Yes, we are using EMS Version 6.3
46	What is the name of the solution you use to process payments? (Name of Gateway such as Authorize.net, CyberSource or software with version number) Also, please indicate if you are billed separately by the gateway provider.	Digital Payment Technologies uses First Data as their gateway.
Rent Stabilization: 1 merchant account (NEW)		
47	What is the estimated monthly credit card sales volume processed? On average, how many transactions do you process on a monthly basis?	This is a possible future service. Currently payments are made via a lock box system.

QUESTIONS AND ANSWERS: 9-16-13**

#	Merchant Services Questions	Answers
Other Merchant Services		
56	Can you explain why you have 14 merchant accounts associated with the 'Credit Card Pay by Space' account?	Different Merchant Accounts are needed in order to identify revenue by location.
57	Can you provide any merchant statements that you have?	Proposals, especially the pricing should be based on the firm's pricing structure/policy/practice.
58	Can you provide three months of processing statements?	Proposals, especially the pricing should be based on the firm's pricing structure/policy/practice.
59	Please identify which locations are accepting pin debit	City Hall (cashiering only, not parking).
60	Does the volume provided in section C for \$5.3 million include the Parking Lots Chart volume for additional \$468,541.35?	Yes. The total annual dollar volume as stated in Section 3 (pages 6 & 7) is \$5,866,746.
61	Does city expect the winner of the RFP to provide credit processing for these companies for the city accounts ?	We expect the firm selected to provide the processing for City Hall first floor (cashiering & parking), parking meters, parking lots, and parking garages. The RFP does not include the recreation (ActiveNet) or parking fines (Xerox).
62	Is there anything you need that you are not being provided by your present provider?	Better rates without a decrease in service.
63	Can you confirm if IPS Group for the parking meters is certified with all processors or just for First Data? If no, what platform are they using?	IPS uses Monetra - Version 7 as their gateway. Monetra is certified to work with multiple processors (see attachment).
64	Can you confirm if Digital Payment Technologies is certified with all processors or just with First Data? If no, what platform are they using?	Digital Payment Technologies uses First Data as well as other gateways (see attachment for additional gateways).
65	Can you confirm if Senry Control Systems is certified with all processors or just with First Data? If no, what platform are they using?	Sentry Control Systems works only with SixCard
66	Can the City of West Hollywood tell us which vendor they are working with for their website?	Vendor has not yet been selected.
67	Do they currently use a gateway/. If yes, can you tell us the name?	Vendor has not yet been selected.
68	Can you provide an analysis statement from the City?	Your proposal, especially the pricing should be based on your firm's pricing structure/policy/practice.
69	Will you be releasing the answers to questions from every participating bank?	Yes
70	How many locations/MIDS will this merchant have?	As per pages 6 & 7 in the RFP.

**CITY OF WEST HOLLYWOOD
QUESTIONS AND ANSWERS: 9-16-13**

#	Merchant Services Questions	Answers
71	Can you get clarification on Rent Stabilization payments? What payment types...Credit card, ACH, IVR? If credit card or ACH is accepted, can you get some detail on transaction types along with transaction count and volume to include in the model?	Currently payments are directed to a lock box. It is anticipated that in the future the City will implement a system whereby the payments can be made via credit card (and probably on-line).
72	What is development cost to become compatible with Sentry Control Systems? Is the compatibility issue something we will/can resolve in time for this deal?	The cost and compatibility depends on your system and Sentry Control Systems.
73	Are you including equipment as part of pricing? If so, what equipment (item description, quantity, cost, etc.)?	Please refer to Appendix C of the Merchant Services RFP and include all requested information. Vendor may make recommendations on equipment to be used. Please note that the current City Hall equipment is leased.
74	Does the Sentry Control System POS use SKiData equipment? If not, could you please provide us more detail on the Sentry Control System POS, specifically we would like to know what type of Middleware is being used?	Yes
75	Do the individual meters accept payment or is there a central kiosk where payments are accepted? Who provides the hardware and software for the parking meters where payments are accepted?	Individual meters accept payments. IPS Group provides the hardware and software.
76	What type (if any) of specialized processing software is used by West Hollywood in the entities you are seeking bids for? This includes, City Hall Cashiering Counter, (Community Development, Finance, Public Works and City Clerk) as well as for the City Hall Parking Counter and the Parking lots and meters?	The current credit card machines do not interface with the City's Financial Management System software. The City is not expecting this to change as part of this RFP process. However, Proposals can include recommendations to better provide services to the City.

Merchant Processors

Partner with a processor that works for you

Digital Payment Technologies (DPT) has developed direct integrations with several merchant processors, and one gateway processor, to facilitate credit card processing. Each merchant processor must be reviewed separately to determine the best one to meet your needs as they all differ in terms of contract requirements, fees and service levels. Gateway processors are typically more expensive than directly supported processors, but they have the advantage of enabling the LUKE and SHELBY pay stations to access a greater number of merchant processors that may be better suited to your unique needs.

If you have ordered equipment that includes credit card processing, it is extremely important that you contact a supported merchant processor for your country to set up your merchant account(s).
