

## WEST HOLLYWOOD PARK PHASE II - ADDITIONAL CORRESPONDENCE

As of 5/29/14

Date Submitted	Park Component	Comment
5/9/2014	Water feature	I would like to see water feature options incorporated into various areas, including but not limited to: a focal point in a park area, part of the grand stair, interior rec center lobby, pool deck, and a kids play fountain at the playground. I would like there to be a priority on interactivity with water features. A consideration should also be how the features integrate when "off", meaning they should look good without water flowing. Is there city experience to leverage from the Sal Guarriello Veterans' Memorial project?
5/9/2014	Rec Services Deck/Atrium	Is the rec center building being extended over El Tovar to touch the existing parking structure? Can a deck or atrium be added at park level to utilize that space? Can an atrium use the parking mural as a focal point?
5/9/2014	Café/Vending	In addition to the possible cafe/vending under the grand stair, I would like to see options for cafe/vending in the rec center lobby (bridge building), on the rec services building roof for outdoor dining, and on the pool deck.
5/23/2014	Gym floor	<p>Below are some links to the gym floor I had talked to a couple of the people about. I'd love to have it considered. I've done some research and the life span of this floor is actually really good (in most cases better than a basic wood floor) and it meets all NBA requirements. It could be amazing to 1: continue to have WeHo on the for-front of technology (we have a robo-garage why not this) and 2: This could allow multiple groups to use the facility at the same time and allow for little-to-no set up for groups that come in. As well as the taping and marking that occurs on the floors now that takes it's toll on them.</p> <p><a href="http://asbglassfloor.com/sports_flooring.php">http://asbglassfloor.com/sports_flooring.php</a> <a href="http://www.dailymail.co.uk/sciencetech/article-2266595/The-amazing-interactive-gym-change-floor-different-sports.html">http://www.dailymail.co.uk/sciencetech/article-2266595/The-amazing-interactive-gym-change-floor-different-sports.html</a> <a href="http://www.theblaze.com/stories/2013/01/25/this-led-gym-floor-changes-instantly-for-any-sport-and-looks-cool-in-the-dark/">http://www.theblaze.com/stories/2013/01/25/this-led-gym-floor-changes-instantly-for-any-sport-and-looks-cool-in-the-dark/</a></p>
