Metropolitan Water District

# GREYWATER WORKSHOP

Saturday, July 30, 2016

9 a.m. – 12 p.m.

Workshop is taught by Greywater Action

They are experienced in teaching low-tech, urban and sustainable water solutions.

Learn about the benefits of greywater to create an affordable household water system that dramatically reduces water use and can play a critical role in drought resilience.

## Part 1. Greywater 101

- Overview of our water supply system
- Ways to reuse greywater (covers plumbing code)
- Plant-friendly soaps and products
- Common types of systems
- General costs and water saving potential
- Design considerations
- Greywater resources

## Part 2. How to Design and Build a Laundry-to-Landscape (L2L) System

- How the L2L system works
- How to estimate greywater flows
- How to install the plumbing and irrigation for the L2L system
- How to estimate how many plants to irrigate
- Maintenance & system costs
