

## Understanding Your Bill

Utility bills can be confusing, but Clean Power Alliance strives to keep it simple. Southern California Edison (SCE) will still send your monthly bill, but instead of SCE charges for both electricity supply *and* electricity delivery, your bill will show Clean Power Alliance charges for electricity supply and SCE charges for delivery.

**Clean Power Alliance is NOT an added fee; we will simply replace SCE's electricity supply charges.**

# Components of Your Electricity Bill

## 1 Customer Account

Your SCE-assigned customer account number identifies your account. Please have your customer account number on hand if you would like to make changes to your Clean Power Alliance service.

## 2 Service Account

Your SCE and Clean Power Alliance service account numbers will both be listed in this section. SCE assigns an additional service account number to track Clean Power Alliance charges.

## 3 Energy Usage

The amount of energy you used in the billing period, measured in kilowatt hours (kWh).

## 4 SCE Rate

Your SCE rate determines how you are charged for the delivery of electricity. Your Clean Power Alliance electricity supply rate may not always match this one because Clean Power Alliance offers simplified, consolidated rate options.

## 5 SCE Delivery Charges

SCE's charges for the delivery of electricity. They include the cost of moving energy from the grid to your home or business and maintaining the electric lines.

## 6 CCA Cost Responsibility Surcharge

SCE's charge to recover costs of power purchased on your behalf before joining Clean Power Alliance. You may have heard of the PCIA, or Power Charge Indifference Adjustment, referred to as an "exit fee" for CCA customers. The PCIA and other surcharges are always included in our cost comparisons.

## Usage Tier

For residential customers, this section indicates the highest tier you are being charged. If your electric use is more than your Tier 1 Allowance, which is set by state law, and crosses into Tier 2, the price you pay per kWh will increase. Customers who use more than 4 times their Tier 1 Baseline Allowance will be charged a High Usage Surcharge.

7

- Additional information:**
- Service voltage: 240 volts
  - Your winter baseline allowance: 76.0 kWh
  - Your summer baseline allowance: 400.0 kWh
  - High Usage Charge applies to all usage above 400% of baseline allowance.
  - Generation Municipal Surcharge (GMS) Factor: 0.006095
  - 2014 Vintage CRS

<b>Your Total Usage:</b> 850 kWh	<b>Tier 1</b> 476 kWh	<b>Tier 2</b> 374 kWh	<b>High Usage Charge</b> 0 kWh
<b>Understanding Your Bill...</b> Your usage for the billing period falls into Tier 2. For most customers, the price you pay increases as you use more energy. The average cost per kilowatt (kWh) in the chart to the right is based on averages. Actual prices may vary.	\$0.09/kWh	\$0.16/kWh	\$0.26/kWh
<b>Your Total Usage</b> 850 kWh

### Things you should know

#### SUMMER/WINTER BASELINE CHARGES

This billing cycle falls between the summer baseline season (which runs from June 1st through September 30th) and the winter baseline season (which runs from October 1st through May 31st). Therefore, you will see two sets of Baseline Charges in the Details section of your bill, reflecting your usage during both the winter and summer baseline seasons. Please note that you were not charged twice for your usage. For more information about baseline seasons, please visit [www.sce.com/baseline](http://www.sce.com/baseline).

8

## Clean Power Alliance Rate

Your Clean Power Alliance rate determines how you are charged for electricity supply/generation. Your Clean Power Alliance electricity rate may not always match your SCE one because Clean Power Alliance offers simplified, consolidated rate options.

9

## Clean Power Alliance Generation Charges

Clean Power Alliance's charge for the generation of electricity. This section notes the Clean Power Alliance rate option currently selected for your account (i.e. Lean Power, Clean Power, or 100% Green Power). These charges replace fees that SCE would collect if they were providing your generation service. This is NOT an additional charge.

10

## Energy Surcharge

This charge applies regardless of your electricity provider. It is collected from all electricity customers statewide on behalf of the California Energy Commission.

# The City of West Hollywood is proud to be a member of Clean Power Alliance!

Residents and businesses within our community can now enjoy the advantages of clean, renewable power at competitive rates.

The best part is: the choice is yours! Customers in the City of West Hollywood will be automatically enrolled in 100% Green Power, but you always have the opportunity to choose the electricity offering that suits your needs best. Nothing else changes—Southern California Edison (SCE) will continue to deliver power, send the bill, and be responsible for resolving any electricity service issues. No matter what offering you choose, you will enjoy the shared benefits of Clean Power Alliance including local management and control, stable, competitive rates, and higher renewable content.
