

ORDINANCE NO. 19-1063

AN ORDINANCE OF THE CITY COUNCIL OF THE CITY OF WEST HOLLYWOOD, APPROVING AN AMENDMENT TO MUNICIPAL CODE TITLE 19, ZONING ORDINANCE AND AN AMENDMENT TO THE SUNSET SPECIFIC PLAN TO MODIFY STANDARDS AND POLICIES FOR OFF-SITE SIGNAGE IN THE SUNSET SPECIFIC PLAN AREA IN THE CITY OF WEST HOLLYWOOD, CALIFORNIA.

THE CITY COUNCIL OF THE CITY OF WEST HOLLYWOOD DOES HEREBY ORDAIN AS FOLLOWS:

SECTION 1. The City of West Hollywood initiated amendments to the Zoning Ordinance Sections 19.34.080, 19.34.090, and 19.90.020 of the Municipal Code and Part 2, Section 1, Subsection 8 (Billboards and Art Advertising) of the Sunset Specific Plan to replace that section in its entirety, in order to establish new policies, guidelines, and standards related to off-site advertising signs in the Sunset Specific Plan Area.

SECTION 2. The proposed changes will establish a new vision and creates a policy framework for the future of off-site advertising signage on Sunset Boulevard. The amendment to the Sunset Specific Plan includes new standards and guidelines to regulate the distribution, size, location, and operation of new and modified billboards and tall walls. Design Principles and an associated evaluation system will ensure high-quality signage projects that are creative, contextual for Sunset Boulevard, and sensitive to adjacent land uses. The amendment also guides the delivery of public benefits, including arts programming, and improvements to the public realm.

SECTION 3. The Planning Commission held a duly noticed public hearing on June 15, 2017. The Planning Commission recommended approval to the City Council for the Zone Text Amendment, approval of the Specific Plan Amendment, and adoption of the Initial Study/Negative Declaration.

SECTION 4. The City Council held duly noticed public hearings on the matter on September 18, 2017 and September 4, 2018. A public hearing was duly noticed for the City Council regular meeting of March 18, 2019 by publication in the Beverly Press newspaper, the West Hollywood Independent Newspaper, and the City website and by announcement on City Channel 6 by March 7, 2019. Notices to property owners and residents within a 500' radius of the Sunset Specific Plan area were mailed and postmarked on March 7, 2019.

SECTION 5. The proposed project is consistent with the Goals and Policies of the General Plan, specifically Policy LU-15, which states that the City should “maintain Sunset Boulevard as a regional, national, and international destination for entertainment, and the primary economic engine of the City” and Policy LU-16, which states the City should “maximize the iconic urban design value and visual creativity of signage in West Hollywood.” The policy reflects a vision for state of the art off-site signage practices that benefit the Sunset Strip with improved pedestrian orientation, support for the arts, and enhanced urban design so that the Strip remains iconic and continues to welcome visitors. Additionally, public art programming brings new visitors to the Strip, technology upgrades enhances the synergy of entertainment, advertising, historic resources and the arts, buildings with integrated billboards create a vibrant experience, and; billboards contribute positively to the excitement of the Strip without negative impacts to nearby residential neighborhoods. Further, the off-site signage policy will conform to the Sunset Specific Plan in meeting the goals for sustaining high quality urban design, economic development, and preservation of cultural resources and does not impede the City’s ability to meet is General Plan and SSP goals.

SECTION 6. Section 19.34.080 of Chapter 19.34 of Title 19 of the West Hollywood Municipal Code is amended to read as follows:

19.34.080 Off-Site Signs.

- A. Purpose. This section provides standards for off-site signs, including district identification signs and large screen video signs not on Sunset Boulevard. All off-site signs on Sunset Boulevard are governed by the Sunset Specific Plan.
- B. Applicability. District Identification Signs are governed by Section (E) below and large screen video signs are allowed in the CR zone in compliance with subsection (F) below. (Also see Section 19.34.090 - Prohibited and Restricted Signs.)
- C. Permit Requirement. A sign permit issued in compliance with Section 19.34.100 (Sign Permits) shall be required for any off-site signs allowed under the provisions of this section, except where a different permit requirement is established by this section.
- D. Approval Authority. The Commission shall have the authority to approve district identification signs and large-screen video signs. The Planning and Development Services Director may approve all other off-site signs and to the extent permitted under this Code.
- E. District Identification Signs. A district identification sign is an off-site sign for the identification of a specific district or center identified in the General Plan or a business improvement or redevelopment area approved by the Council.
 - 1. Procedure. Hearing notice shall be sent to all businesses within a district or redevelopment area, or to owners of property within 500 feet of the site, whichever is less.

2. Standards. District identification signs shall not:
 - a. Interfere with pedestrian or vehicular safety to the satisfaction of the Director of Public Works;
 - b. Detract from the pedestrian quality of the surrounding area; or
 - c. Add to an over-proliferation of signs on one property or in an area.
3. Maintenance Agreement Required. The owner of the sign shall enter into an agreement with the city for funding the ongoing cleaning, maintenance, and repair of the sign subject to the approval of the Director of Public Works.

F. Large Screen Video Signs.

1. Criteria for Eligibility. Large screen video signs shall be allowed only in conjunction with new construction of 5,000 square feet or more. Large screen video signs may be approved when the signs are located in the CR zone and meet all of the following criteria:
 - a. The site where the sign is located is designated gateway node under the General Plan.
 - b. The site where the sign is located is designated a light way or glow way under the Santa Monica Boulevard Master Plan.
 - c. The large screen video sign is a component of a special lighting concept contributing the project's gateway status as a glow way or light way as required by the Santa Monica Boulevard Master Plan.
2. Procedure. Public notice shall be provided as required by Chapter 19.48 for a Development Permit.
3. Standards. Proposed video signs shall comply with the following standards:
 - a. The sign shall be at least 100 square feet in screen area.
 - b. If the sign is located in the CR zone, the sign shall be at least 200 feet away from any residentially zoned property and 1,000 feet away from any other large screen video in West Hollywood.
 - c. If the sign is located in the CR zone, the sign shall be no larger than 500 square feet in size.
 - d. Off-site advertising shall be limited to the large-screen video portion of the sign.
4. Time Limits and Extensions. Large screen video signs shall be installed within two years from the date of approval. The Planning and Development Services Director may, upon request before the expiration date, extend the permit one time for an additional six months in compliance with Chapter 19.62 (Permit Implementation, Time Limits, and Extensions).

SECTION 7. Subsection 19.34.090(A)(4) of Section 19.34.090 of Chapter 19.34 of Title 19 of the West Hollywood Municipal Code is amended to read as follows:

4. Off-site signs not specifically allowed by the provisions of Section 19.34.080 (Off-Site Signs) or the Sunset Specific Plan;

SECTION 8. Section 59 of the definition of "Sign" within Subsection 19.90.020 of Chapter 19.90 of Title 19 of the West Hollywood Municipal Code is amended to read as follows:

59. *Tall Wall Sign.* An off-site sign with minimum area of 5,000 square feet, attached to an existing building wall visible from Sunset Boulevard.

SECTION 9. Sunset Specific Plan Part 2, Chapter 8 is hereby deleted in its entirety and replaced with the Sunset Boulevard Off-Site Signage Policy, attached hereto as Attachment A.

PASSED, APPROVED, AND ADOPTED by the City Council of the City of West Hollywood at a regular meeting held this 1st day of April, 2019 by the following vote:

AYES:	Councilmember:	Duran, Heilman, Meister, Mayor Pro Tempore Horvath, and Mayor D'Amico.
NOES:	Councilmember:	None.
ABSENT:	Councilmember:	None.
ABSTAIN:	Councilmember:	None.

JOHN D'AMICO, MAYOR

ATTEST:

YVONNE QUARKER, CITY CLERK

STATE OF CALIFORNIA)
COUNTY OF LOS ANGELES)
CITY OF WEST HOLLYWOOD)

I, YVONNE QUARKER, City Clerk of the City of West Hollywood, do hereby certify that the foregoing Ordinance No. 19-1063 was duly passed, approved, and adopted by the City Council of the City of West Hollywood at a regular meeting held on the 1st day of April, 2019, after having its first reading at the regular meeting of said City Council on the 18th day of March, 2019.

I further certify that this ordinance was posted in three public places as provided for in Resolution No. 5, adopted the 29th day of November, 1984.

WITNESS MY HAND AND OFFICIAL SEAL THIS 2nd DAY OF APRIL, 2019.

YVONNE QUARKER, CITY CLERK

DRAFT SUNSET BOULEVARD BILLBOARD POLICY

This document replaces Part Two: Section 1, Subsection 8 of the 1996 Strike-Through Draft Sunset Boulevard Specific Plan, Billboards and Art Advertising.

All other signage not addressed in this section is regulated by the West Hollywood Municipal Code.

1. BACKGROUND & VISION

The Sunset Strip is globally recognized for its vibrant combination of signs, entertainment, and nightlife. The Strip has the densest concentration of off-site signage (billboards and tall wall signs) on the West Coast. A unique destination, vibrant during both day and night, the Strip is a major economic engine for West Hollywood, with a long tradition of innovative and memorable signage. This policy update realizes the City's long-standing vision to enhance the unique traditions of Sunset Boulevard to integrate off-site signs, entertainment, and public art into the existing iconic and historic setting, resulting in a one-of-a kind built environment that celebrates the City's creative identity. The creative legacy of billboards on the Sunset Strip provides cultural value to both the City and the greater region.

Off-site advertising signs are integral to the character of the Sunset Strip and interface with the larger West Hollywood community. Determining the appropriate number, placement and quality of the signs is an important factor to ensure that these signs are good neighbors. This chapter sets forth goals, policies, and procedures for off-site signage on Sunset that encourages creativity, allows for updated technology, and describes appropriate operations requirements.

The off-site advertising industry on the Sunset Strip is a key driver of the West Hollywood economy. The City's vision addresses the needs and goals of the Strip, as well as those of the billboard operators and property owners.

This chapter builds on the original principles of the Sunset Specific Plan, providing a vision and framework for design excellence, new opportunities for signage, public art, economic development and preservation of cultural resources.

The following statements express the City's multi-faceted vision for the role of off-site advertising signage on the Sunset Strip:

- The 21st century Sunset Strip will continue to be iconic, attractive, and welcoming to visitors.
- Off-site advertising signage enhances the historic synergy of entertainment, advertising, arts, and music with cutting-edge technology.
- Excellent design thoughtfully integrates billboards and architecture to provide an urban experience like no other.
- Modifications to existing signage and new signage benefit from improved quality and high design standards that protect and enhance value.
- Public art programming integrates with signage to bring new visitors to the Strip.
- Billboards are good neighbors, contributing positively to the excitement of the Strip without negative impacts to nearby residential neighborhoods.

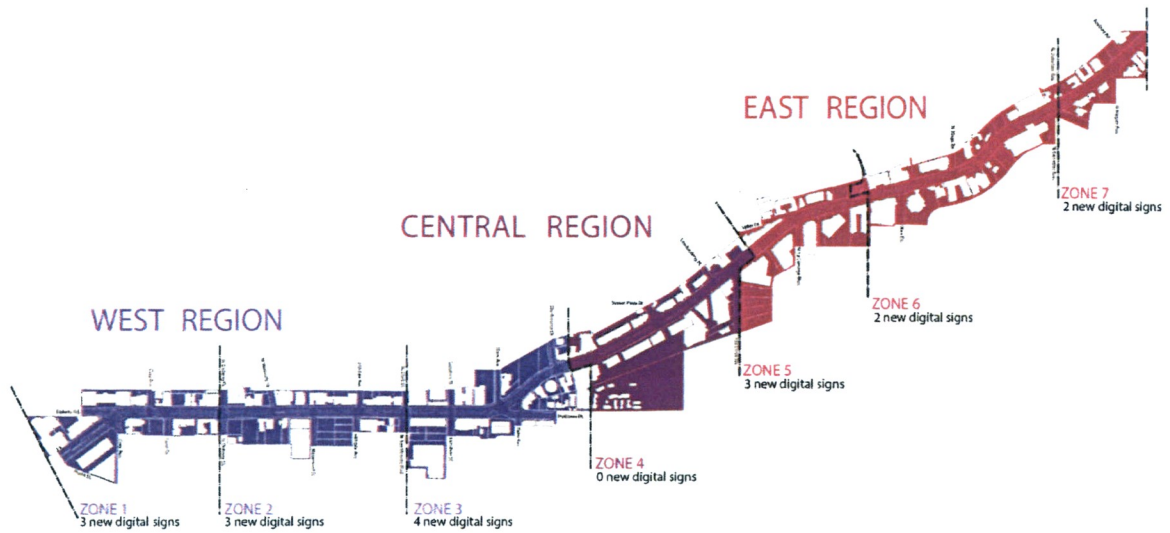

This policy implements the vision components that:

- Identify preferred sign types and locations,

- Recommend distribution and number of off-site advertising signs,
- Allow enhancements to existing signs,
- Permit digital technology with appropriate operations features, and
- Support a unique cultural setting that synthesizes off-site signage and public art.

Recommended Digital Billboard Distribution

Digital off-site advertising signs are intended to be distributed along the Sunset Strip to complement the linear experience of the street. The suggested distribution is allotted to the individual regions and zones as shown in the Digital Billboard Distribution map below in order to support the specific character of each Zone. While the guidance of distribution is suggested at these zones, it does not suggest that signs be distributed evenly within each.

2. **DESIGN PRINCIPLES:** The design principles build on the existing creative energy of the Sunset Strip to provide for new and modified off-site signage that synthesizes advertising, urban design, architecture, public art, entertainment, and 21st century technology. Off-site advertising projects that meet or exceed the following principles are encouraged, and each will be reviewed for design features that demonstrate the intent of the following principles.

DESIGN QUALITY

- a. Design Excellence
 - i. Off-site advertising signage that focuses on innovative media formatting thoughtfully integrated with excellent building design.
 - ii. Signage projects that create a timeless design that contributes to the iconic nature of Sunset Boulevard.
 - iii. Off-site advertising signage that is part of a cohesive design approach, bringing together signage with building architecture and high-quality pedestrian spaces or enhancements with the following design elements:
 - 1. Complementary and integrated design, style, and materials of signage and architecture.
 - 2. Signage that complements existing signage where applicable, showing a seamless approach to all signage on site.
 - 3. Off-site advertising signage must not hide or obscure the underlying uses, entrances, or open spaces of the building.
 - 4. Usage of high-quality and durable materials.
- b. Innovative Design
 - i. Integrates with other building features such as architectural lighting elements, green walls, or other innovative design features
 - ii. Utilizes innovative billboard formats including vertical orientation, curved or multi-planar surfaces, and/or non-standard proportions.
 - iii. Creatively uses the latest in technology to ensure digital image quality
 - iv. Uses innovative architectural features and materials.
- c. Context & Compatibility Design
 - i. Enhances adjacent public spaces and the overall experience of pedestrians.
 - ii. Is compatible with surrounding buildings and natural features.
 - iii. Responds to topography and curves of the street.
 - iv. Provides innovative opportunities for integrated public art.
 - v. Builds on and respects the historical and cultural identity and energy of the Strip.
 - vi. Acts as a good neighbor to surrounding area by limiting light spill-over and visual intrusion.
 - vii. Avoids and reduces the appearance of visual clutter.
 - viii. Does not contribute to an over-concentration of digital signs compared to the distribution allocation in the Digital Billboard Distribution map.

ADAPTABLE & SUSTAINABLE STRATEGIES

- d. Adaptability
 - i. Creates signs with lasting economic value through use of quality materials.
 - ii. Envisions future technology and provides opportunity for upgrades.

- iii. Designed to evolve with future cultural and lifestyle trends.
- e. Sustainable Practice
 - i. Uses 100% clean energy and/or generates energy on-site.
 - ii. Incorporates innovative sustainability features.
 - iii. Addresses and furthers the City's intent for a sustainable development.
 - iv. Uses durable, natural, and other sustainable materials.

LASTING VALUE

- f. Economic Development
 - i. Increases value and visibility of off-site signage that attracts new viewers and resonates with the City's creative identity.
 - ii. Represents the potential for an iconic sign, based on the combination of design and location that is responsive to the creative identity of West Hollywood and the Sunset Strip.
 - iii. Is part of a project that maximizes land use development potential, especially at the high-value locations on Sunset Boulevard.
 - iv. Results in signage that is secondary to the land uses on the lot, unless certain limitations preclude other uses.
- g. Community Benefits
 - i. Provides public benefits, uses, or other features that address identified City priorities and community needs as part of development agreements and that meet the vision and intent of the policy.
 - ii. Incentivizes the preservation of significant Cultural Resources through off-site signage revenue.
 - iii. Complements and protects the character-defining features of cultural resources.
 - iv. Furthers the City's vision for enhancing public art on the Sunset Strip.

3. ADMINISTRATIVE PROCEDURES

	Type	Qualifying Criteria & Section	Permit Type (Zoning Code Section)/ Application Process	
Billboards	New Signs/Sign Area, (including additional area from Reallocation)	New Development at 75% Development Capacity 4.c.i	Development Agreement (5a.i) + Screening for Design Excellence (5a.ii)	
		Significant Upgrade Project at 75% Development Capacity 4.c.ii		
	Reallocation of Existing Sign Area On-site (equal or lesser area)	4.c.iii.3	Administrative Permit	
	Modification or Replacement of Existing	Addition of Second Face		4.c.v.5
		Relocation or Reorientation		4.c.v.4
		Height Increase		Proof of Obstruction 4.c.v.2
	Traditional to Digital Conversion	Existing Billboard on Cultural Resource 4.c.iv	Certificate of Appropriateness + Development Agreement + Screening for Design Excellence	
Tall Wall Signs	Modification	4.d.3	Development Agreement	
	Image Change	4.d.3.iii	Zone Clearance w/6-month term grant	
Temporary Creative Projects	Billboards	7.a	Administrative Permit	
	Tall Wall Signs	7.a		
	Temporary Advertising Installations	8		
Alternative Projects		3.b	Development Agreement + Screening for Design Excellence	

a. **Project Requirements**

- i. **Development Agreements.** New billboard projects, modification of tall wall signs, and alternative projects are subject to the review and approval procedures and requirements of Chapter 19.66 of the Zoning Code. In addition:
 1. Each approved project is required to provide public art programming as outlined in Section 3.e.
 2. In addition to the Required Findings of Zoning Code Section 19.66.030, the approval of the Development Agreement shall also require a finding that the project includes public benefits, which include: Physical site improvements or monetary contribution intended for streetscape amenities or publicly accessible open space that enhances the quality and comfort of the pedestrian experience.
- ii. **Screening For Design Excellence.**
 1. Applications for new off-site signs shall be screened for design excellence in accordance with a process and procedures established by the City Manager, or designee.
 2. Design excellence shall be evaluated based on the specific design principles in Section 2.
 3. Qualifying submissions are granted a concept award, valid for a period of 2 years, and making the applicant eligible to apply for a development agreement.
 4. The City may choose to limit the number of concept awards/applications for digital billboards under review at one time.

b. **Alternative Projects.**

- i. All Off-Site Sign projects are subject to the applicable design and development requirements, guidelines and standards listed in this Chapter. However, the City retains discretion to approve an alternative proposal if the project is shown to further the vision, goals and policies stated by the Sunset Specific Plan and is consistent with the intent of the urban design vision, design and development requirements, guidelines, and standards that would otherwise apply to the project as demonstrated by making the required findings below.
- ii. In addition to the Required Findings of Zoning Code Section 19.66.030, the approval of the Development Agreement for an alternative project shall also require findings that the project:
 1. Meets the overall intent of the Design Principles of Section 2 above;
 2. Represents an exceptional design that furthers the vision of both the Specific Plan and of Part 2, Section 1, Subsection 8; and
 3. Creates or includes an extraordinary benefit to the City.

c. **Alternative Sign Area Measurement**

- i. In lieu of the provisions of WHMC Section 19.34.040, the surface area of an irregularly shaped sign may be calculated by measuring those portions used for off-site advertising content on a 1' x 1' grid. Area may be non-contiguous; however, portions located within 5 feet in any dimension shall constitute a contiguous measurement.

d. Viewshed Analysis

- i. Modification to existing signs that change height or relocation on site as described in Section 6.c.v shall complete an analysis of views as described below.
- ii. The Viewshed Analysis shall illustrate the relationship between the proposed modifications to the billboard and:
 1. Designated local, state, and national Cultural Resources.
 2. Public viewsheds identified for view protection and enhancement in the Sunset Specific Plan.
 3. Existing outdoor advertising facilities on adjacent parcels.
- iii. The following shall be included in the submission:
 1. Photo simulation of proposed off-site signage as seen from vantage points located on Sunset Boulevard approximately 1250 feet to the east and west of the project.
 2. Context plan view of proposed modified billboard depicting a 1250 feet radius area, which identifies the primary sight lines and their relationship to adjacent parcels (including residential uses to the north and south of the Strip).
 3. 3D massing studies depicting proposed modified billboard. The studies should include massing of proposed development, if any, on applicant's parcel as well as existing buildings and advertising signs within a 1250 feet radius.

e. Public and Arts Programming

- i. Digital billboards shall contribute a minimum of 17.5% of programming time for art or civic announcements.
- ii. New and modified off-site signs (non-digital) shall contribute a minimum of 96 hours per year for art/public programming or provide a financial equivalent.
- iii. The West Hollywood Arts and Cultural Affairs Commission Art On The Outside (AOTO) Subcommittee shall be responsible for the approval of all public arts programming, in accordance with the ACAC's established guidelines for public arts programming.
- iv. The City shall establish the scheduling and operations of arts programming for digital billboards on an annual basis and may alter programming schedules depending on factors such as the number of participating signs, cultural events, technological updates, City priorities, or sign operator input.
- v. Programming time for digital billboards shall include artwork displayed at the top of each hour and once a month during a five-hour event, with precise scheduling to be determined by the City's AOTO Subcommittee on an annual basis.
- vi. Each new sign shall include a revenue sharing public benefit monetary contribution that will include funding for City's art programming, such as curator and artist fees, on the Strip.

- f. Ground Disturbance.** Modifications to existing signage that requires ground-disturbing activities must adhere to the following standards:

- i. Projects proposing new ground disturbance (e.g., excavation of new post holes) should be reviewed by an archaeologist who meets the Secretary of the Interior's Professional Qualification Standards prior to any ground-disturbance taking place. The archaeologist shall provide an assessment of archaeological sensitivity and the potential to impact subsurface deposits, and may provide recommendations for archaeological and/or Native American monitoring, additional study, or testing, if warranted.
- ii. In the event that archaeological resources (sites, features, or artifacts) are exposed during construction activities, all construction work occurring within 100 feet of the find shall immediately stop until a qualified archaeologist, meeting the Secretary of the Interior's Professional Qualification Standards, can evaluate the significance of the find and determine whether or not additional study is warranted. Depending upon the significance of the find under CEQA (14 CCR 15064.5(f); PRC Section 21082), the archaeologist may simply record the find and allow work to continue. If the discovery proves significant under CEQA, additional work, such as preparation of an archaeological treatment plan, additional testing, or data recovery may be warranted. Construction in the vicinity of the find(s) shall not resume until deemed appropriate by the archeologist.
- iii. If paleontological resources are encountered during excavation, all work within 100 feet of the find must stop and the City of West Hollywood Planning & Development Services Department shall be immediately notified. A qualified paleontologist shall be retained to evaluate the finds and recommend appropriate handling and recovery methods. Construction in the vicinity of the find(s) shall not resume until deemed appropriate by the qualified paleontologist.

g. Vegetation.

- i. Existing vegetation on public property shall not be removed or trimmed in order to improve views for any sign.
- ii. Construction activities that involve vegetation trimming or removal and occur between February 1 and August 31 require that a qualified biologist must survey the immediate area for the presence of an active bird nest. If an active bird nest is located within the disturbance area, avoidance measures shall be developed by the biologist to ensure compliance with the Migratory Bird Treaty Act.

h. Nonconforming Signs

- i. Nonconforming off-site advertising signs within the area of the Specific Plan shall be subject to the provisions of Zoning Code Section 19.72.040.
- ii. Existing large video screens shall not change sign area or location but may upgrade technology in compliance with this chapter's Lighting and Operational Standards through an Administrative Permit process.

4. Sign Types and Standards

a. General Standards

i. Location

1. All off-site signs shall be located no less than 10' above the adjacent sidewalk level unless designed to be part of a pedestrian enhancement.
2. The height of each sign shall not exceed the maximum allowable height for each site.
3. Signs shall not obscure public sightlines to building entrances or publically accessible open space and view terraces.
4. Space between billboard face and building should be minimized and shall not exceed six feet.

b. Design and Operation

- i. Backlighting is encouraged for new and existing traditional billboards through a sign permit process.
- ii. Windows that are partially obscured by signs and architectural lighting shall allow for the transmission of 50% of visible daylight.
- iii. Designs may integrate digital advertising displays with the creative use of architectural lighting.

c. Billboards

i. New Development Projects. A new billboard may be approved as part of a new development project.

1. Development projects that include a billboard application must be developed to at least 75% of the allowed permitted floor area (base density) on the subject property allowed under the Sunset Specific Plan.
2. Development project applications deemed complete between June 1, 2012 and [insert effective date of this SSP Amendment] may be eligible for consideration to include an off-site signage component.

ii. Significant Upgrade Projects. A new billboard may be approved as part of a significant upgrade or façade remodel project on an existing building.

1. A significant upgrade or façade remodel shall constitute either:
 - a. A substantial change in the exterior fenestration and overall appearance of at least 50% of the area of the façade(s) facing Sunset Boulevard.
 - b. An interior remodel improvement project with a valuation of at least 25% of the assessed value of the building according to the County Assessor's records if the property had been sold within the past 24 months or a current appraisal from an MAI Designated Appraiser.
 - c. Completion of Phase 1 Seismic Upgrade as described in Section 13.28.040 of the West Hollywood Municipal Code prior to obtaining sign permits.
2. The building shall utilize at least 75% of the permitted floor area (base density) on the property.
3. Additional building façade height unsupported by occupied floor area, such as, but not limited to, wall extensions, framing elements, and other

similar features shall not be added for the purposes of creating area for an off-site sign.

iii. **Sign Area**

1. **New Billboards.**

- a. The total combined sign area of new billboards on any site shall not exceed 1,500 square feet.
- b. The total sign area of digital billboards on a site shall not exceed 1,000 square feet.

2. **Existing Billboards.**

- a. Cultural Resources.
 - i. The cumulative digital sign area among all eligible cultural resource sites shall be limited to 4,000 square feet.
 - ii. Digital billboards on a site with a designated cultural resource shall be limited to 1 sign face per site.
 - iii. The sign area of digital billboards allowed on any cultural resource site shall be the lesser of:
 1. The existing sign area of an existing billboard as recorded in the 2019 Inventory of Outdoor Advertising Signs on Sunset Blvd. (2019 Inventory); or
 2. 1,000 square feet.

3. **Reallocation of Sign Area for Existing Billboards.**

- a. The sign area of any existing billboard(s) may be reallocated or combined to new off-site signs subject to the requirements of Section C.4.v below.

iv. **Modification to Existing Billboards on Designated Cultural Resources**

Sites. Designated cultural resources with existing off-site advertising signs may modify or improve their off-site advertising assets to encourage preservation of historic structures, including opportunities to convert existing billboards to digital technology subject to the following:

1. All projects involving a designated cultural resource shall submit a Certificate of Appropriateness application to be reviewed by the City of West Hollywood Historic Preservation Commission in accordance with WHMC Chapter 19.58.
2. All new or modified signs located on or directly adjacent to a property containing cultural resources shall conform with Secretary of the Interior's Standards for Rehabilitation to ensure projects do not adversely impact the integrity of the resource or its setting, obscure character-defining features of any adjacent historical resources, and are compatible with the scale, size, and proportion of the historic resource.

v. **Modification of Existing Signs.** Existing non-digital signs, as identified in the 2019 Inventory, may be modified subject to the Administrative Permit requirements and procedures.

1. **28-Day Notification.** Notwithstanding the notice requirements of Section 19.44.050 of the WHMC, an Administrative Permit for a modification of

an existing off-site sign shall be posted on-site for 28 days and shall meet the posting size and location requirements of W.H.M.C. Section 19.74.020.c.

2. **Height.** Existing billboards with sightlines that are obstructed by City street trees or existing buildings may apply for a one-time exception for additional height of up to 14 feet above the allowable height limit of the parcel if can be demonstrated that such a modification is necessary to improve visibility.
3. **Area.** An existing billboard may add sign area up to a maximum area of 1,200 square feet per face.
4. **Relocation on Site.** An existing billboard may change its location or orientation with the submittal of a Viewshed Analysis. Additionally, the relocation shall be no closer than three feet from an adjoining property line.
5. **Addition of Second Face.** A second billboard face to be added to an existing traditional billboard to cover the supporting back structure is permitted in accordance with the provisions of this section:
 - a. The new billboard face shall be no larger than the existing billboard face and no part of the new billboard face shall exceed the dimensions of the existing face, and to the extent feasible should match the dimensions of the existing sign. The new billboard face shall serve to effectively screen the back supporting structure of the existing billboard.
 - b. The height of the second face shall not be greater than the height of the existing face.
 - c. The new billboard face shall be visible from Sunset Boulevard.
 - d. One-sided billboard faces that are part of an existing "v-shaped" billboard shall not be converted into a two-sided billboard.
 - e. The addition of a second face shall not create a "v-shaped" billboard.
 - f. If the existing billboard height exceeds the height limitation of the zoning district of the parcel, the height of the existing billboard and the new second face shall be reduced to comply with the height limitation. Notwithstanding, a second side may be allowed above the height limit on a billboard mounted directly on a rooftop if the existing billboard is kept in the exact location with no change of angle and provided that both the existing face and the proposed second face otherwise meet all requirements of this section.
 - g. Maximum distance between billboard faces shall be six feet, and the new billboard face shall be mounted on the same support structure as the existing billboard.

d. **Tall Wall Sign**

- i. **Sign Area.** The sign area for a single tall wall sign shall be no less than 5,000 square feet.
- ii. **Design Standards**
 1. Each sign shall be attached to the face of a building.

2. The image area may include the use of windows, provided that windows comprise no more than 15 percent of the image area and provided further that any material used to cover windows allows visibility through the windows from the building's interior.
 3. The sign shall be designed and oriented to provide an unobstructed view of the minimum image area of the sign from at least one pedestrian vantage point at ground level on Sunset Boulevard.
 4. The area of the sign containing text shall not exceed 15 percent of the total sign area as measured in compliance with West Hollywood Municipal Code *Section 19.34.040(C)*.
 5. The wall occupied by the sign may have separate planes, provided that the sign is perceived as a continuous image from at least one point on Sunset Boulevard.
 6. The primary wall (whichever wall contains the most sign area) shall contain no other signs, except for street address, building identification sign, or the logo of the primary tenant.
 7. The use of the proposed wall for a tall wall sign shall not substantially impair the aesthetic appeal of the building's architecture.
- iii. **Modification of Tall Wall Signs.**
1. Existing tall wall signs may be modified to reallocate existing sign area to change the proportions, orientation, and location of the sign with the approval of a Development Agreement.
 2. Addition of building wall area, use of backlighting technology, or the addition of new sign area are not considered a modification and are not permitted.
 3. The image displayed on tall wall signs may change subject to a Zone Clearance process.
 - a. The Zone Clearance shall have a term grant of 6 months, after which the image must be removed. The Director may approve a one-time extension for an additional six month period.

5. Lighting and Operational Standards. All new or modified off-site advertising signs, architectural lighting, and temporary displays shall comply with the following luminance and operational standards.

- a. Hours of Operation: All digital billboards shall meet the following limits for time of day and ambient lighting conditions:
 - i. Sign luminance shall change during each day on the following schedule:
 1. Daytime: From sunrise until 20 minutes prior to sunset, luminance shall not exceed 6,000 candelas per meter squared. Any portions of signs that are less than 10' above adjacent side shall not exceed 2,400 candelas.
 2. Evening: From sunset until 20 minutes prior to sunrise Luminance shall not exceed 300 candelas per meter squared.
 3. After Hours: From 2:00 am until sunrise, no animated content or moving patterns shall be permitted.
- b. Illuminance
 - i. Illuminance from signs or architectural lights shall not exceed 1.4 foot candles at any adjacent residential zoned property line.
- c. Digital Sign Control and Transitions.
 - i. Sign luminance shall transition smoothly between the hours of operation limits above over a time period of no less than 20 minutes. All transitions shall be completed so that the maximum allowable luminance is achieved by the stated time listed above.
 - ii. When ambient sunlight illuminance during daytime is less than 100 foot candles for more than one (1) hour, the digital billboard should transition at a smooth rate of change from the daytime luminance level permitted above to the evening luminance level permitted at a suggested rate of no less than 20 minutes.
 - iii. Each image displayed on a digital billboard shall not be refreshed more often than once every 8 seconds.
 - iv. Each image displayed on a digital billboard (i.e., each individual advertisement or artwork) shall fade in from the previous image over no less than one (1) second, and shall fade out over no less than one (1) second to the image of the immediately succeeding content.
- d. Visual Comfort and Contrast Control
 - i. Digital billboards shall not incorporate driver interaction features.
 - ii. No signs shall use colors or images that replicate or could be confused with traffic safety signage.
 - iii. No signs shall use scrolling text.
 - iv. Signs shall not use stroboscopic or flashing images which rapidly change direction, oscillate, flash or reverse in contrast.
 - v. Animated content and moving images shall be designed specifically for the size and format of the digital billboard.
 - vi. Animated content shall not exhibit
 1. Rapidly changing images shall use dissolves for transitions between static images, and between static and animated content;
 2. Sequences that result in visible brightness change over more than ten percent (10%) of the total display area at a greater rate than three (3) changes per second; or
 3. Edits at a rate of more than one (1) edit every three (3) seconds
- e. Renewable Energy Use.

- i. All new billboard operations shall utilize the highest available clean energy tier from the City's energy provider to the extent feasible.
 - ii. The incremental energy usage attributable to digital signs, as defined in 4.c, should be fully offset to the extent feasible through demonstrated improvement in the energy performance for new buildings or major renovations of existing buildings.
- f. Audio. On site sound shall be allowed only during special events.
- g. Monitoring
 - i. All digital billboard operators shall submit a Lighting Monitoring Report to the Director upon installation, and at three year intervals thereafter to confirm conformance with the lighting requirements above. The report shall include:
 - 1. Digital billboard luminance measured in nits (candelas per square meter). Measurements shall be conducted at the property line of the digital billboard site, or in the nearest adjacent public right of way, perpendicular to the digital billboard sign face.
 - 2. Digital billboard sign illuminance measured in foot candles. Measurements shall be conducted perpendicular to the digital billboard sign face, at the property line containing the digital billboard, and at adjoining residential use property or properties. The illuminance meter shall be aimed toward the sign face from the measurement location.
 - 3. All measurements shall include both luminance and illuminance for three conditions:
 - a. The sign off
 - b. The sign illuminated with an image
 - c. The sign illuminated using an all-white display
 - ii. Complaints about lighting will be investigated by the City, and if determined necessary by the Director, the digital billboard operator shall provide an updated Lighting Monitoring Report within 72 hours of the notice from the City. The City shall reserve the right to conduct digital billboard lighting measurements. If the measured luminance and or illuminance exceed the data presented in operator's Lighting Monitoring Report, the findings of the City report shall prevail.

6. Architectural Lighting. Architectural lighting may be integrated into a building façade to enhance the architectural design of the building if the following requirements are met:

- a. Integral large scale architectural lighting, digital or otherwise, shall contain no commercial logos, images, or messages that may be interpreted as advertising.
- b. Architectural lighting shall not be counted towards permitted signage area, either on or off-site, and shall not be considered a billboard.
- c. Architectural lighting is subject to maximum allowable lighting levels of Section 5.
- d. Architectural lighting shall be designed and operated to minimize impact on adjacent buildings.

7. Temporary Creative Billboards or Tall Walls. Temporary modification to existing billboards or tall wall signs may be permitted in compliance with this section. The following regulations are intended to encourage creatively designed short-term installations that make a positive visual contribution to Sunset Boulevard and to the overall image of the city.

- a. **Approval Authority.** Temporary creative billboards and tall walls are subject to approval by the Director.
- b. **Time Limit.** The Director may approve the placement of a temporary creative billboard or tall wall for a maximum period of 12 months. One six-month time extension may be approved or denied by the Director and the temporary creative billboard or tall wall shall be removed immediately upon expiration. Certain types of physical extensions may be installed for a longer period, as allowed by state law.
- c. **Standards:** A temporary creative billboard or tall wall sign shall be designed and located in compliance with all of the following standards:
 - i. The temporary creative billboard or tall wall sign shall alter an existing sign without changing its location. Any enlargement of the sign shall be designed as an integral part of the image and contribute to the overall creativity of its design.
 - ii. The temporary creative billboard or tall wall sign shall be properly sited and well-integrated within the context of its surroundings.
 - iii. Temporary creative billboard or tall wall shall be an inventive and original representation of the product or business being advertised.
 - iv. The temporary creative billboard or tall wall sign shall exhibit one or more of the following elements:
 1. Three-dimensional props and extensions.
 2. Extensions with cut-out shapes or voids.
 3. Integrated thematic lighting such as neon, LED, images which change from day to night through lighting effects, projected light, video projections, or other emerging technologies.
 4. Moving or animated mechanical elements.
 5. Different day-time and night-time images.
 6. Hand-painted graphics or graphics crafted on-site.
 7. Alternative textures and materials, such as plants and vegetation.
 8. Live action.

9. Innovative technologies such as passive participatory attributes or three-dimensional anamorphic illusions over multiple surfaces.
 10. Text covering the sign surface, when such text is an artistic component of the sign.
 11. Other features as approved by the Director.
- v. The following elements do not qualify as creative for the purposes of a temporary creative billboard or tall wall sign: use of color alone, and/or use of stretched vinyl or similar material.
 - vi. Temporary creative billboards or tall wall signs that incorporate three-dimensional elements and extensions shall also meet the following criteria:
 1. The area of any prop or extension shall not be more than 15 percent of the existing permitted area for tall wall signs or 25 percent of the overall area of the existing billboard sign face, or the maximum area allowed by state law for customary maintenance, whichever is greater.
 2. No extension on any billboard shall exceed 100 feet above the adjacent sidewalk on Sunset Boulevard as taken from the curb at the nearest point to the sign support.
 3. Extensions shall not project more than 25 feet from any edge.
 4. Extensions shall have a distinct shape and shall not be used to uniformly expand the area of the billboard.
 5. Three-dimensional props fully integrated into the artistic theme of the tall wall may be placed on the rooftop of the building above the tall wall sign in a location that is clearly visible from the same viewing angle as the primary plane of the tall wall, subject to a limit of 25 feet above the existing rooftop.
 - vii. Moving or changing visuals shall be timed to not cause driver distraction or interfere with the flow of traffic, or otherwise adversely impact public health, safety, or welfare. Moving or changing visuals shall be designed to minimize the impact on neighboring residential uses.
 - viii. No three-dimensional element or extension to a billboard shall extend or project beyond the property line of the subject site without approval of the Director and express written permission of the adjacent affected property owner(s).
 - ix. Temporary creative billboards or tall wall signs using digital lighting components, arrays and video animation are not permitted.
 - x. Lighting of the creative tall wall signs shall be designed to minimize glare onto other properties and uses. Creative tall wall signs that incorporate thematic lighting or projections shall meet the Lighting & Operational standards above.
8. **Temporary Advertising Installations:** Three-dimensional advertising installations, scenarios, vignettes, or associated ground level displays on outdoor private property shall be permitted per the following criteria
- a. Installations shall be subject to the Special Event Permits section of the WHMC. Approval is subject to review of all pertinent City departments as determined by the Director.

- b. Notwithstanding any requirements in the WHMC, the following shall supersede the requirements related to Special Event Permits:
- i. The installation is allowed to occupy private and/or public outdoor space.
 - ii. The installation shall last for no longer than 30 days.
 - iii. The installation shall be located within an open space area of no less than 800 square feet, provided the appropriate City review is conducted the 800 square feet may include the public right of way.
 - iv. Installations shall be permitted no more than three times per year, per site.

9. Definitions

2019 Off-Site Sign Survey. The 2019 document that records all existing off-site signage as of the effective date of this amendment. Incorporated herein as *Attachment A*.

Alternative Sign Area. Any sign area intended for display of off-site advising content as measured by a continuous 1' x 1' grid.

Architectural Lighting. Lighting features using any technology that may be integrated into a building façade that enhances the architectural design of the building.

Animated Content. Illuminated content on a sign that moves or otherwise changes via the use of motion picture or video technology, digital or otherwise.

Billboard. A large panel or display designed to carry outdoor off-site advertising content.

Commercial Content. Text, images, graphics, or objects in an off-site advertising display intended to promote a use, facility, service or product.

Cultural Resource. Please refer to West Hollywood Municipal Code, Chapter 19.90.

Development Agreement. Please refer to West Hollywood Municipal Code, Chapter 19.90.

Development Project. A stand-alone building that may or may not be part of a multi-phase development.

Digital Billboard. A billboard utilizing digital sign technology on an off-site advertising sign face to broadcast a message containing static or animated Content. For the definitions of a digital sign please refer to West Hollywood Municipal Code, Section 19.90.020.

Director. The Director of Planning and Development Services or successor department, or designee.

Existing Billboard/Sign/Tall Wall. Any billboard or tall wall included in the 2019 Inventory of Outdoor Advertising Signs on Sunset Blvd..

Luminance. Calculation (candelas) of amount of light emitted from a light source.

Luminance Transition. The process of smoothly adjusting intensity of luminance between designated levels.

Moving Patterns. Motion oriented Lighting effects that do not convey Commercial Content.

New Billboards. Billboards constructed or erected after the effective date of this amendment.

Off-Site Sign. Please refer to West Hollywood Municipal Code, Chapter 19.90.

Sign Face: The portion of an off-site sign designed to display advertising content. A single billboard may have multiple faces.

Standard Billboard Format. A Billboard face with a horizontally oriented rectangle of 14 x 48 feet, 20 x 60 feet or dimensions of the same proportions.

Temporary Advertising Installations. A temporary advertisement or promotional campaign that involves a series of related three-dimensional objects or structures.

Traditional Billboard. A billboard utilizing print technology to convey the advertising message and requiring physical installation, removal and maintenance of the messaging surface (such as, but not limited to stretched vinyl) on a recurring basis.
