SECTION 2. The City Council hereby adopts the full City of West Hollywood Fee Schedule described in Attachment "A" attached hereto and incorporated herein by this reference. SECTION 3. The City Council called a public hearing on June 1, 2020 for the purpose of receiving public comments to the proposed fees. Notice of the public hearing was given by publication in a newspaper of general circulation within the City once a week for two weeks commencing at least 10 days prior to the public hearing, with at least 5 days intervening between the first and last publication. SECTION 4. The City Council finds and determines that:

- (a) The Fees established by this resolution:

(1) are imposed for a specific government service provided directly to the payor, or for reasonable regulatory costs of the City for issuing licenses and permits, performing investigations, inspections, and administrative enforcement of the City's Municipal Code or other rules or ordinances;

(2) are no more than necessary to cover the reasonable costs of the governmental activity for which the Fee is imposed; and

(3) the manner in which those costs are allocated to a payor bear a fair or reasonable relationship to the payor's burdens on, or benefits received from, the governmental activity for which the Fee is imposed; and

(b) The Fees are not taxes within the meaning of California Constitution article XIII C, section 1(e).

SECTION 5. If any section, subsection, clause or phrase in this resolution or the application thereof to any person or circumstances is for any reason held invalid, the validity of the remainder of this resolution or the application of such provision to other persons or circumstances shall not be affected thereby. <p>The fee for the removal of a public tree is variable and shall be based on the valuation methodology published in the <u>Guide for Plant Appraisal, current edition</u> authored by the Council of Tree and Landscape Appraisers (CTLA). Class information used in the formula is published in the species guide of the Western Chapter of the ISA. The formula for valuation is: Tree Value = Base Value × Cross Section Area × Species Class × Condition Class × Location Class. Appraisals shall be conducted by the City through an ISA Certified Arborist or ASCA Registered Consulting Arborist. Base Value is the dollar amount assigned to one cross-section unit (square inch or square centimeter) of a tree's trunk cross-section area. Cross-Section Area is used to express tree size. Species Class is an assigned value based on all the landscape merits of a landscape tree species and its accompanying potential for problems. Condition Class is a factor indicating the health, vigor and life expectancy of a tree, as well as its quality of form relative to a "perfect specimen" of that species. Location Class is based on the functional and aesthetic contribution, which the tree makes to the site, the placement of the tree on the site, and the importance of the location in the landscape context of the community.</p>	Calculated	Same	Calculated
