

AQMD - Rule 1403 Form Notification of Demolition or Asbestos Removal

The site must be inspected and the following statement must be signed by a **California State Certified Asbestos Contractor** for the issuance of a demolition permit

- I certify that within the past three months I have personally inspected the proposed demolition site at _____ West Hollywood, CA.
- I hereby declare that the site does not contain significant or potentially dangerous amounts of asbestos-based, building materials that could cause airborne asbestos fibers during the demolition process. I further certify that (check applicable line)
 - There are none of the items listed below at this site:
 - a. Sprayed plasters or fire proofing
 - b. Rigid siding, roofing, linoleum flooring, or insulation
 - c. Questionable and unidentified building materials
 - Some or all of the items listed above are present at the site but have been tested at a laboratory and determined to be asbestos-free.
- I hereby declare there is asbestos at this site.
 - The AQMD has been notified. A copy is attached. (Please note: the AQMD must be notified on all demolitions even if there is no asbestos).
 - A State Certified Asbestos Contractor has been /will be hired for the entire abatement operation.
 - Adjacent neighbors have been notified.

I attest that the foregoing statements are accurate and that the failure to properly notify the South Coast Air Quality Management District (AQMD) may result in the cancellation of the permit.

Property Owner's Name	Owner's Email
Certified Asbestos Contractor's Name	
State Asbestos License No.	Contractor Email
Asbestos Contractor Signature*	Date

***If the site does not contain significant or potentially dangerous amounts of asbestos-based building materials complete Owner's Asbestos Notification Attestation Form.**

AQMD - Rule 1403 Form Notification of Demolition or Asbestos Removal

IMPORTANT INFORMATION FOR ALL DEMOLITION, RENOVATION AND ASBESTOS CONTRACTORS

Rule 1403, adopted January 1, 1990, significantly altered former U.S. Environmental Protection Agency (EPA) NESHAP, 40 CFS, Part 61, Subpart M requirements by lowering reportable quantity notification amounts for friable and non-friable asbestos containing material (ACM). This now includes residential demolition and renovation activities. Rule 1403 also mandates how you are to report, remove, handle, label, store and dispose of ACM.

Current regulations require you to:

- Notify the AQMD Office of Operations in writing within ten working or fourteen calendar days prior to any renovation work that involves 100 square feet or more of ACM or any kind of demolition work, including demolitions of buildings which do not contain asbestos.
- Follow the provisions of 40 CFR 763.107 for bulk sampling of friable material.
- Perform a sample analysis using the procedure detailed in the AQMD "Laboratory Methods of Analysis for Enforcement Samples" manual, or equivalent. This procedure is currently Polarized Light Microscopy with Dispersion Staining.
- Comply with one or more of the procedures outlined in Rule 1403 when you remove, strip or handle ACM.
- Store any asbestos containing waste in labeled, leak-tight containers enclosed in a locked area inaccessible to the public.
- Keep records of all demolition and renovation activities for at least two years and provide them to District staff upon request.
- Provide asbestos abatement training for supervisors and workers in an EPA approved State Accredited training course.

As of November 1, 2016, all Rule 1403 Asbestos Removal and Demolition Notifications and fee payments must be submitted to AQMD through their web-based online application. No application submitted via fax or email will be accepted.
