IMPLEMENTATION

This section describes the implementation actions for the General Plan 2035.

Implementation actions are generally one-time actions needed to mobilize and execute specific policies within the General Plan, such as creating an ordinance or updating a master plan.

Implementation actions presented here are organized by the relevant chapter within the General Plan. Each implementation action lists the City departments and divisions that will be involved in implementation, a suggested time frame, and the policies that correspond to the action (where applicable).

Time Frame	
Short	1-2 years
Medium	3-5 years
Long	5+ years
Ongoing	Recurring or continuous action

Please note that not every policy within the General Plan will have an implementation action; instead, many policies require ongoing efforts that are not specifically dependent upon a single mobilizing action.

The implementation actions are intended to be updated more frequently than the rest of the General Plan, adding or modifying actions due to changing social, economic, and environmental conditions, as well as changes in funding and department priorities.
